**Paving, Milling, Transportation Services, Rental of all type of construction machineries and renovation work.**

We are adequate in equipment and manpower, experience, and knowledge to handle many kinds of projects.

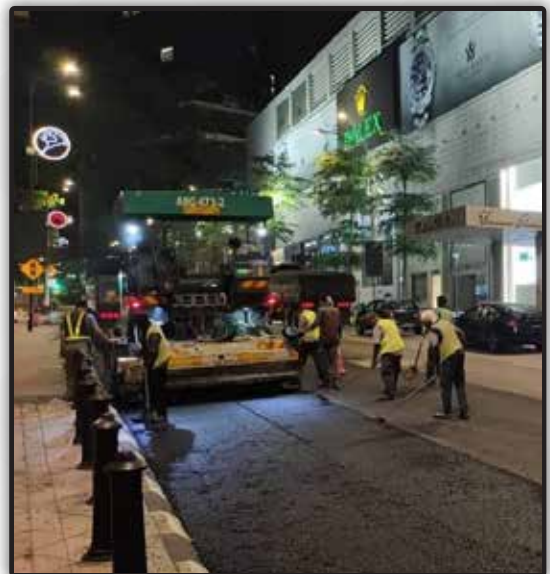

We undertake several projects to a wide range of clientele, from small private developments to large government projects, due to our commitment to excellent and satisfying results in completing projects for both contractor and our valued client.

The main services provided by us are mainly on road & drainage, civil & infrastructure works. We also provide manpower supply, hire of machinery and transportation services.

## ROAD PAVING & MILLING

Road pavements due to the effect of traffic, heavy vehicles or some environmental factors. As such, small cracks will develop, allowing water to enter the surface. This will weaken the pavement day by day and cause road failure. Hence, we also provide road maintenance services such as road repairs and road patching works to ensure that roads are smooth and safe to be used.

## **ROAD MARKING**

### **CLASSIFICATION OF ROAD MARKING.**

- » Conventional solvent based road marking
- » Conventional Water borne road marking
- » Solvent free road marking
- » Hot Melt Thermoplastic Road Marking Paint
- » Water borne retro-reflective Road Marking Paint
